Alisa Chestler Comments on Data Breaches in Hotel News Now

Alisa Chestler, chair of the Firm's Privacy and Information Security Team, recently participated in a panel session at the 2015 Hotel Data Conference, during which she discussed how information security affects hotels. In this *Hotel News Now* article highlighting the session, Ms. Chestler notes that vendors often represent the weakest link when it comes to data security.

"You need to understand who your partners are that are going to have access to your personal data," Ms. Chestler said. Once they have this data, how are they going to maintain it?"
