

PRESS RELEASE

Baker Donelson's Noah Kressler Recognized in the 2017 Silicon Bayou 100

February 02, 2018

Baker Donelson is pleased to announce that Noah Kressler has been selected as a member of the 2017 Silicon Bayou 100. The Silicon Bayou 100, published by Silicon Bayou News, recognizes the most active and influential people in tech and entrepreneurship in Louisiana today. Silicon Bayou News is a leading source of tech and startup news in Louisiana.

"I am pleased to be recognized as a leading voice for entrepreneurship in Louisiana," said Noah Kressler. "The entrepreneurs and innovators in our ecosystem are moving our state forward, and I'm honored to be acknowledged among them."

Noah Kressler is of counsel in Baker Donelson's New Orleans office and co-chairs the Firm's Louisiana Life Sciences and Technology practice. Noah is an experienced corporate finance and transactional attorney whose practice covers a wide range of capital markets, securities law, emerging company and general corporate matters. As co-chair of the Firm's Louisiana Life Sciences and Technology practice, he leads a team of experienced attorneys and advisors who counsel emerging and established life sciences and technology companies on corporate, finance, intellectual property, employment, public policy and other legal and business issues.

Baker Donelson is the leading law firm in Louisiana dedicated to supporting and developing companies in life sciences and technology.

Baker Donelson's [Louisiana Life Sciences and Technology Team](#) has a sophisticated and unique understanding of the intellectual property, corporate, finance and other legal issues surrounding emerging and established companies in the life sciences and technology industries in Louisiana. Baker Donelson's multidisciplinary team of attorneys, patent agents and public policy experts counsel clients in all areas, including patent prosecution; business transactions, corporate finance and capital raising; tax-efficient entity selection and structuring; tax credits and economic development incentives; university technology transfer; employment law; commercial intellectual property transactions and licensing; patent portfolio growth and management; trademarks and branding; international trade; public/private partnerships; intellectual property enforcement; litigation; federal, state and local public policy, and lobbying; regulatory compliance; and information privacy and security management.
