

OUR PRACTICE

Manufacturing

Baker Donelson's multi-disciplinary manufacturing team offers a seamless range of legal experience in the areas of greatest concern for manufacturers. We pride ourselves on being the go-to resource for manufacturers who need to rely upon trusted, proven legal counsel. Our team offers strategic advice and solutions for your company's investment, whether you are a foreign company entering the U.S. market or a U.S. company looking to expand domestically or internationally, as well as assistance with ongoing operations.

Our priority is to remain tuned in to the evolving manufacturing climate so that we can partner in the most effective way possible. As our clients continue to offer cutting-edge innovation, they will need innovative advisors who provide cutting-edge legal services.

Our attorneys advise manufacturers in a variety of industries, including:

- Automotive, including electric vehicles
- Aviation
- Chemicals
- Clothing
- Electronics
- Food and food additives
- Gaming
- Machinery
- Medical device
- Oil and gas
- Pharmaceutical
- Plastics
- Pulp and paper
- Renewable energy
- Shipbuilding
- Sporting equipment
- Transportation

Our broad industry scope equips our attorneys with the knowledge and experience needed to provide strategic advice for our clients' businesses, as well as to proactively collaborate to position them for success.

Ongoing Operations

For established manufacturers looking to manage and grow their businesses, we provide virtually every conceivable "run the company" service, from labor and employment to tax, and from intellectual property to corporate governance and mergers and acquisitions.

We stay up to date on the evolving manufacturing climate so that we may serve as trusted advisors at every stage of a company's life cycle and serve any legal need.

Our services include:

- Brand and product strategy, management, and protection
- Commercial litigation
- Contract management
- Corporate and commercial
- Emerging technologies (artificial intelligence; biometrics, etc.)
- Government and public finance
- Governmental compliance, sustainability, and green technologies
- Information security
- Insurance recovery and counseling
- International trade matters, including antidumping and countervailing duties
- Trade compliance issues, including import and export
- Management and human capital
- Product liability
- Project financing
- Public policy and lobbying
- Real estate
- Site selection, expansion of facilities, and economic incentives
- Strategic acquisitions
